Profile

Forward-thinking Developer with 15+ years of experience. I specialize in **AI-assisted programming** to deliver clean, scalable, and complex software solutions significantly faster than traditional methods. My expertise spans Full-Stack development, ERP/CRM systems, and multimedia content creation.

Experience

AI-Assisted Full-Stack Developer

Freelance | 2009 – Present

- Develop complex web/mobile apps (ERP, CRM) using AI workflows for precision and speed.
